Lusófona University, Lisbon

2021 - Present

LANGUAGE

English

Portuguese

BRUNO RAMOS

PROGRAMMER

With a strong command of multiple programming languages, including Java, Python, C, and Kotlin, I bring a wealth of experience to software development.

EXPERIENCE

SCHCOOL WORKS

Lusofona University

Logic Development for a Board Game: Played a key role in developing the logic and gameplay mechanics for a board game. Collaborated closely with a multidisciplinary team to design and implement the core rules, player interactions, and turn-based mechanics.

HOBBY

- **Front-end website development:** Experienced in front-end web development, I specialize in creating visually appealing and user-friendly websites using HTML, CSS, and JavaScript
- **Document Scanning Application:** Engineered a user-friendly program capable of digitizing physical documents for electronic storage and manipulation. Integrated image processing algorithms to enhance the quality of scanned documents and implemented features for automatic document detection, cropping, and optimization.
